

gecko soundbase

stereo sound system & radio for iPod

Smart, intuitive design

A retractable iPod tray that can be opened and closed with a simple push. Just one of many great features packed into Gecko's soundbase.

Attractive styling

With clean lines, easy operation and great looks, soundbase has everything you need to control and listen to your favourite tunes in any room, any time!

Remote iPod menu control

Another great feature of the soundbase is that you can control most of your iPod's menu functions from the comfort of your chair with the included remote control.

Soundbase comes with 3.5 to 3.5 mini jack cable, remote control, AUX input and dock adapters for iPod 3G nano, classic 80Gb, classic 160Gb and touch. Everything you need!

Features:

- 
High quality audio
 Power up and get a great stereo sound thanks to soundbase's custom speaker set. Includes 2 full-range speakers, 2 tweeters and 2 internal bass ports.
- 
Programmed infra-red remote
 Remote control your soundbase from the comfort of your chair. All functions including source select, volume and iPod menu controls can be accessed quickly and easily.
- 
AM/FM clock radio with LEDs
 Tune in and save up to 8 of your favourite AM or FM radio stations into the built-in memory. Soundbase's bright gecko green LEDs make it easy to read day or night.
